The Hidden Costs

Name _____

Work with a partner. Compare answers when you finish each problem.

1. Where does the answer come from? Draw the path from your Chromebook to the AI and back.

2. The costs.

AI runs in buildings full of computers called _____

One text answer uses about _____ watt-hours of electricity and about _____ drops of water.

Workers in Kenya who labeled data for ChatGPT were paid less than _____

3. Estimate the cost of our class.

Questions each student sends in one day (my guess)	
Students in our class	
Questions for the whole class ($\times$)	
Watt-hours ($\times$ 0.3)	
Phone charges ($\div$ 15)	
What the calculator said	
The world, one day: U.S. homes for a day	

One answer uses a little. Billions of answers use _____

4. Talk about it. AI is (worth / not worth) the cost when _____

The workers who label data should _____

Go Further (Day 2). A receipt for AI. What did one AI answer or picture need?

RECEIPT	
Item	**Who pays?**

Which costs are paid by someone other than me? _____
