The Big Question, Again KEY

Name _____

Work with a partner. Compare answers when you finish each problem.

1. My first answer. On the first day, I circled: Yes / A little / No

My reason was: Answers vary.

2. What we know now.

AI is like a brain because . . .	AI is different from a brain because . . .
It has many small parts that pass signals.	A brain runs on about 20 watts.
It learns from examples.	A child learns from a few examples.

3. Replace the brain, one cell at a time.

The line	Squeeze time (seconds)
All neurons	
One chip	
Half chips	
All chips	

Is the line still a “brain”? When did it stop, or did it? Answers vary.

4. The Big Question. Is AI like a human brain?

Yes A little No

Reason 1 (from Lesson _____): Answers vary.

Reason 2 (from Lesson _____): Answers vary.

Did my answer change from the first day? Why or why not? Answers vary.

The question I still have: Answers vary.

Go Further (Day 2). The class debate. My team: like / not like

	Our reason	**From which lesson?**
1		
2		
3
