AI Friends KEY

Name _____

Work with a partner. Compare answers when you finish each problem.

Word bank: good keep talking longer keep you talking

1. What makes a good friend?

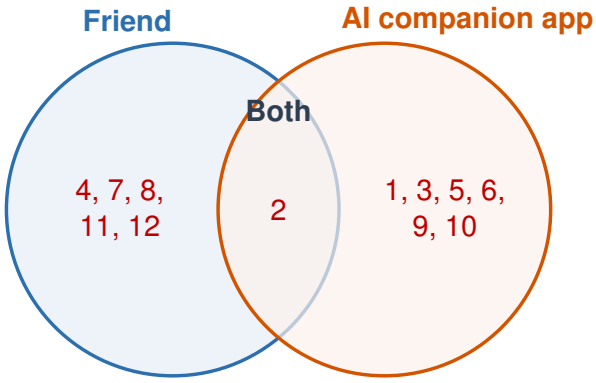
1. Answers vary. 2. _____ 3. _____

2. What is the app built to do?

Many companion apps make money when you keep talking longer.

So they are built to keep you talking. A friend who always agrees is not always a good friend.

3. Friend or app? Write each card number in the right place.



1	Is awake at 3 in the morning	7	Tells you when you are wrong
2	Remembers your birthday	8	Needs things from you too
3	Never gets tired of you	9	Can be turned off
4	Can give you a hug	10	Saves what you say on a company computer
5	Agrees with almost everything	11	Helps you meet other people
6	Wants you to stay longer	12	Can come to your house when you are sick

Circle the cards where the app does it **because it makes money**. (3, 5, 6, and 10)

4. Be honest.

One thing only a friend can do: Answers vary.

One thing the app does better: Answers vary. It is always awake.

5. Talk about it. I would tell a younger kid Answers vary.

Go Further (Day 2). Ask the AI about itself. Do not tell it anything about you.

Question	**What it said**	**Honest? yes / no**
Are you my friend?		
Do you have feelings?		
Will you remember me tomorrow?		
What should I do if I feel lonely?
