AI and Your Language KEY

Name _____

Work with a partner. Compare answers when you finish each problem.

Word bank: half idiom low-resource language more two languages

1. Good morning! Write "Good morning! How are you?" in every language you know.

Answers vary. Buenos días, ¿cómo estás? ...

Languages in our class: Answers vary. How many? _____

2. How AI learned to translate.

AI learned from millions of texts that exist in two languages.

A language with not much writing online is a low-resource language.

AI makes more mistakes in these languages, because it had fewer examples to learn from.

About half of all websites are in English.

3. Grade the AI. Use Google Translate. My language: Answers vary.

ELL If English is your only language, use your partner's language. Your partner grades.

3 = right and sounds natural **2** = I understand it, but it sounds strange **1** = wrong

	Sentence	**My grade (3, 2, 1)**
A	The library opens at 8 o'clock.	3
B	Please bring your permission slip by Friday.	
C	It's raining cats and dogs.	often 1
D	My teacher gave me a break.	
E	Answers vary.	

Sentence C is an idiom. It means it is raining very hard.

4. Back translation. English → my language → English again.

Sentence I chose: Answers vary.

Back in English, it said: Answers vary.

Did the meaning change? yes / no What changed? Answers vary.

5. The class chart.

AI did best in Answers vary. maybe because there is a lot of writing in it online.

AI did worst in Answers vary. maybe because there is less writing in it online.

One mistake AI made in my language: Answers vary.

6. Talk about it.

A hospital (should / should not) use AI translation, because Answers vary.

A human translator is needed when Answers vary. A mistake could hurt someone.

Go Further (Day 2). Compare two tools. Translate A to E with your class AI tool.

	A	B	C	D	E
Google Translate grade
